DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to a specific accounting tax preparation method, classified in class 705, subclass 31.
 - II. Claims 14-17, drawn to a second accounting and tax processing method, classified in class 705, subclass 31.
 - III. Claim 18-24, drawn to finance and tax strategies, classified in class 705, subclass 36T.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method of preparing taxes by allowing employers to claim a reduction in liabilities. Invention II has a separate utility has a separate use such as preparing taxes for a company by claiming a net increase in assets. Invention III has a separate utility such as implementing a tax strategy that designates each party's role in the selection of an insurance-for-benefits plan and reduces an employer's liability. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and

Art Unit: 3626

because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
